About This Content

Tropicana Campaign Setting

Once upon a time in the Caribbean...

In Tropicana, characters are adventurers, rogues and troubleshooters, on the narrow border between law and something else.

They are detectives and spies, gamblers and mercenaries, exotic dancers and celebrities in need, traffickers and thugs, pilots and soldiers, surfers and tourists, students and activists. They will surely find themselves in trouble, be hired to handle trouble or actively look for trouble. And trouble in San José is always big, complicated and twisted.

And after any adventure, they like to have boat drinks and smoke cigars together by the poolside.

Tropicana is a game of action heroes, special agents and troubleshooters in San José, a rogue state consisting of a tropical

metropolis, its wild jungle hinterland and a small archipelago of paradise islands.

Fight criminals, investigate ancient mysteries, solve cases, seduce the most beautiful men and women!

Now grab your gun and a mojito and join the spies, billionaires and rebels in this gangsta's paradise!

Written by: Mauro Longo and Giuseppe Rotondo

This product includes the free adventures Prisma Service and Lost in San Jose

Prisma Service

A pregenerated agency for Tropicana, with 6 ready characters.

This Agency has its headquarters in the basement of a XVII century palace in La Laguna.

Thanks to its members' varied skills and backgrounds, Prisma Service offers a wide range of services, from delicate investigation to unusual transportation and delivery, to smooth solutions for rough problems.

Motto: "Our experience, your satisfaction"

Lost in San Jose

In this adventure you will find 5 pregenerated characters. These characters are perfect for adventures where troubles conspire against the player characters! These aren't exactly action heroes (yet!), but neither they're hopeless losers – sooner or later they will surely get involved in some kind of trouble...

Conversion by Perry Chalmers

Released on October 10, 2017. Designed for Fantasy Grounds version 3.2.2 and higher.
